Information Disclosure Statement

1. The information disclosure statement filed 2/10/2004 is acknowledged by the examiner.

Allowable Subject Matter

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: U.S. Pat. No. 5,847,474 (Gruden et al.) disclose a linear actuator having two rails (22), an armature (14), and an arm (25) connected to the armature but lacks the arm connected to a valve member and a first armature lock as well as a second armature lock. U.S. Pat. No. 1,040,359 (Latimer) discloses a valve actuator comprising a linear actuator, a valve body (v1), a valve element (23), a valve actuator further comprising two solenoid coils (L and K), and armature (M) but lacks two rails and a first armature lock as well as a second armature lock. Moreover, there is not motivation to combine these to references to arrive at Applicant's claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Pat. No. 4,733,595 (Oberly) discloses a linear actuator having two rails.
